Buxton Construction
Re: Assisi Aged Care Stage 2

I am writing to confirm that the acoustic insulation (rated to A3.0) has been installed in accordance with the documents and manufacturers guidelines to all walls and ceilings.

Also to confirm that all walls nominated as Fire rated have been constructed in accordance with the documents and manufacturers guidelines.

The Smoke walls have been constructed as documented and fully sealed to underside of slab/roof sheets

All items have been installed as per the drawings and specifications.

Yours sincerely,

A handwritten signature in cursive script, appearing to read 'Alison Scott'.
