### Trial Licenses

A Trial License, for up to 90-days, may be included in this Entitlement certificate for your evaluation.

**Service Assurance Manager (SAM)** is used for proactively testing connectivity and performance of the Meru wireless networks

**Spectrum Manager (SM1000)** enables detection and classification of wireless interference (this may require Meru Network's PSM3x sensor or AP433is Access Point with integrated sensor)

For more information on trial licenses, please contact your Meru Networks sales representative or customer support.
